## PRO SERIES

The Pro Series blends proven precision with a slightly finer vinyl profile compared to other NBP series, for increased visibility. Paired with the latest thermal technologies offered in our energy packages, Pro Series windows immediately come to mind as a strong go-to product for any project.

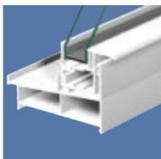

## FEATURES

### ACROSS THIS SERIES

**100% VIRGIN VINYL**  
Maintenance-free frames, with fusion welded corners for increased structural integrity far exceeds the strength of ordinary designs, our lowest profile frame and more visible glass.

**DOUBLE PANE CLEAR GLASS**  
Standard throughout this series.

**DOUBLE WEATHERSTRIPPING**  
Our draft-resistant double weatherstripping provides UV protection, helps resist mold, mildew, and fungus, and prevents dust, light, noise, and air infiltration.

double pane glass  
Low E/Argon filled U.28  
1/2 screen
